

Managed Backup as a Service, Powered by Ahsay

Ensure Data Availability with a Simple, Powerful, Fully Managed Solution

There's no business so small today that it doesn't depend on critical data. A failed hard drive, ransomware attack or even accidental deletion can do serious damage if you don't have recent backups from which you can quickly restore your data and applications.

CyberFortress Backup as a Service, Powered by Ahsay, takes all the complexity out of backup and recovery with a powerful, fully managed solution run by CyberFortress' data recovery experts. But Ahsay is so easy-to-use, you can recover data on your own, should you want to.

Fully managed

Completely managed from deployment and backup scheduling to rapid recovery.

Secure

All data is protected by AES 256-bit encryption with customer-controlled keys and stored in CyberFortress' ultra-secure data centers.

Simple to use

The solution is so easy to manage, you can choose to restore data on your own if you wish.

Personal support

Access to a live human being for quick problem resolution 24x7.
